

Save energy Save money

What your customers need to know about the benefits of insulation:

- Without adequate insulation, around a third of energy used for heating and cooling homes is wasted.
- Insulation is the most effective way of reducing energy bills
- Properly installed insulation reduces heat transfer – so the home stays cool in summer and warmer in winter.

Winner – Eurofins Gold Award

EarthWool™ is the world's first insulation product to receive the coveted Eurofins Indoor Air Comfort Gold standard award. This recognition underpins Knauf Insulation's commitment to provide customers in Australia with world leading products which meet the growing market demand for more sustainable and environmentally friendly construction materials – www.eurofins.com

ITCH!”
Make the switch

KNAUFINSULATION
it's time to save energy

Can insulation really feel THIS good?

Knauf Insulation's new EarthWool™ products don't look or feel like any insulation you've ever experienced, that's because the natural brown colour represents a level of sustainability and ease of handling never before achieved in Australia. The colour and 'super soft' feel comes from a revolutionary sustainable binder which does not contain the oil based chemicals, added formaldehyde or artificial colours commonly used in other insulation.

EARTHWOOL™

the feel good insulation

Not as itchy

The 'super soft' feel of EarthWool™ comes from a revolutionary, patented binder made using renewable bio-based materials.

Make the switch!

Made using recycled glass

EarthWool™ is made using recycled glass bottles and sand making it the best choice for your environmentally conscious customers.

Reduced handling

Unique compression packaging means more insulation per truck load.

Fire safe

Unlike other types of ceiling insulation, EarthWool™ is non-combustible.

Blocks sound

EarthWool™ absorbs sound for a quieter home.

Enhanced indoor air quality

With no added formaldehyde, EarthWool™ provides high indoor air quality and is suitable for use in households with allergies.

EarthWool™ Batts

- Recommended for installation in both walls and ceilings
- Extra rigid for 'friction-fitting'
- Extra high compression packaging to maximise volume per pack
- 'Super soft' for easier installation
- Available in a wide range of R-values

EarthWool™ Ceiling Rolls

- Recommended for installation from within the ceiling space
- Packaging will fit easily through the ceiling hatch
- Fast to install
- High thermal performance due to fewer joints
- Compression packed to reduce handling
- Each pack is pre-cut to provide either 2 rolls at 580mm or 3 rolls at 430mm

Easy to install

EarthWool™ is a soft touch when it comes to installation too. It makes the job quicker and easier, so you can get more done in less time.

EarthWool™ Ceiling Rolls

Unroll the insulation and lay between the joists

You can also cross layer over existing insulation to increase thermal performance

Lay electrical cables over insulation.

EarthWool™ Batts

These can be simply friction fitted between studs

They can also be laid between joists
